3 CHILDREN FOUND BURNED TO DEATH

Father Locked the Door When He Went to Roof, and After Fire Engines Clattered Up He Could Not Make Firemen Understand Little Ones Were Inside.

The three little children of Hyman Cohen, janitor of the five-story tenement at No. 211 Madison street, were burned to death to-day in the basemen' of the house.

Chen was on the roof when the fire started and knew nothing of it until the engines arrived. Then he was so excited that he was unable to speak when he reached the street, and the firemen, not knowing of the presence of the little ones in the building, made no attempt to rescue them.

Four rooms in the basement were occupied by Cohen and his wife and the three children. In the front room was a big stove, which was kept heated continually. The family slept in the second room, which contained clared guilty on seven counts in the a bed and a couch. The two rear rooms were dining-room and kitchen.

HUSBAND A TIMID MAN.

Cohen is a small man of shrinking disposition. His wife is the moving force of the family. She peddles small notions and dry goods sundries through the east side, and started out early to-day with her pack, leaving the children asleep.

Louis, seven years old, was under the bed, wrapped in a blanket; Meyer, two years old, was asleep on the bed, and the baby, Sarah, two months old, was slumbering on the couch, bundled up with bedclothes and garments. After eating his breakfast Cohen went to the roof to fix a leak in the

water tank, locking the door of the apartment behind him. As is the custom on the east side the rooms were practically hermetically sealed for purposes of warmth. The stove in the front room became overheated and soon the woodwork

was ablaze. The heat broke one of the front windows and the fire spread to the rear rooms. A passerby turned in an alarm.

Roundsman Trainor and Policemen Flynn and Black ran to the fire the spectators in the court-room and from the Madison street station, arriving with the engines and Hook and dict. The woman was then led back to Ladder No. 6. By that time the tenants were crowding out of the building her cell in fail. and the stairways were jammed.

Neither policemen nor firemen knew of the children in the basement and they directed their attention to getting out those on the upper floors. Little difficulty was experienced in subduing the flames, which were confined to the Cohen flat.

CHILDREN DISCOVERED DEAD.

After the fire was out the members of the book and ladder company went into the basement to rip out the wall and look for sparks and smouldering embers. In the kitchen of the Cohen flat one of the firemen stumbled over the body of little Meyer, who had evidently got out of bed and was looking for something to eat. He was dead from suffocation.

Louis was found dead under the bed. The baby, protected in a measure by the mass of cloth in which it had been swathed, was breathing, but noththe could be done for it and half an hour after the fire was out the Cohen children were all dead.

There was a big crowd in front of the house before the engines arrived. It is believed that some of those in the crowd knew that the children were in the basement, but no move was made in the direction of rescue. Cohen was insane by the time he reached the street and his ravings could not be

Mrs. Cohen was peddling in and out of the tenements in Hester street when she heard that there was a fire in Madison street. She hurried along

MOTHER IN A FRENZY.

In front of her home she found the street blocked. Gray smoke hung between the tall buildings and the sickening odor of burning cloth was in the atmosphere.

The intuition of a mother told her that something had happened her children. She went through the crowd, screaming, hurling men and women right and left, demolishing the police fire line, and was stopped only at the door of the basement, where there was a crush of firemen.

Just as she arrived they were carrying out her baby. She uttered a ream that was heard above the noise of the fire engines and the roar of great crowd. She tore her hair out in handfuls. When her husband to her side she struck him. Half a dozen policemen took the surervors of the Cohen family to the station house, stark mad for the time

GETS DEATH BLOW

Commissioner Darlington Will Break Anti-Toxin Trust by Sending New York Product Throughout United States.

WILL SELL CURATIVE AT COST PRICES, TOO.

Is Against Law that There Is a Higher Law Than Any in Statue Books.

After a two weeks' inquiry by the Health Department of the rumors that a trust had been formed to handle anti-toxin, Health Commissioner Darlington declares that there is such a combination, and to-day gave out a statement in which he offers to sell such surplus as the Department of Health of this city may have on hand to the Chicago Department of Health, and such other departments in various cities as may need assistance of New York.

While conducting his investigation Dr. Darlington had an interview with H. J. Schnell, manager of the Druggists' Circular, who, the statement, says, has tion of the New York courts. represented the three chief manufacturers of anti-toxin in their efforts to Mowbray. He asserted that the writ of stop the sale of this product by the habeas corpus obtained yesterday by Department of Health in New York.

ters bear the date of Jan. 13, 15 and 16 had accepted service for her at his flat, and are in many ways identical, which No. 316 West Ninety-fourth street, last show that the three manufacturers all bray kidnapped the child from the hold exactly the same attitude toward

After Mr. Schnell had told Dr. Darlington that all three of these firms had assured him that there was no combination, but when pressed to do so he seemed unable to state definitely upon what he based his belief other than the statements of the manufacturers. Even supposing that there was

ombination." rejoined Mr. Schnell; what would you do?" Dr. Darlington says Mr. Schnell asked him. "I replied," said Dr. Darlington, "that I would double, treble or quadruple our output. I would sell it from here to San Francisco. Mr. Schnell told me that it would be against the law.

'You may be right,' said I, 'but tell you that there is a higher law, books, and that is the necessities of the poor. The life of one child is worth more than all the profits of your nanufacturers.'

Dr. Darlington further says that is his view a combination of antitoxin manufacturers is a direct menace to the well-being of the public. He believes it to be the duty of public medical officers to use every means in their power to protect the poor and those who are ignorant of the curative properties of antitoxin; and see that they obtain its benefits at a moderate price.
